

# **NAP PROCESS IN TOGO EXPERIENCE INTEGRATING ADAPTATION INTO PLANNING AND BUDGETING**

PRESENTED BY DELEGATION OF TOGO  
(MM. B. SAMA, T. MEATCHI, A. ISSIFOU)

# LAUNCH OF NAP PROCESS IN TOGO

Togo NAP process officially initiated by the Government of Togo in 2014 with the support of GIZ .

- ✚ Implementation of a comprehensive and participatory approach;
- ✚ Institutional and technical diagnostic (assessment of national capacities as a prerequisite for entry in the process);
- ✚ Strengthening institutional and technical capacities ;
- ✚ Development of a roadmap for planning and integration of climate change adaptation in medium and long-term planning

# LEGAL AND INSTITUTIONAL FRAMEWORK

Set up in July 2014 an intersectoral coordination structure for the NAP process adopted by ministerial decree.

Intersectoral Committee chaired by the Ministry of Planning and co- chaired by the Ministry of Environment and Forest Resources (MERF) and the Ministry of Economy, Finance and Development Planning

Inclusion of other sectoral ministries and representatives of civil society in the Committee.

# NAP PROCESS STRATEGY

- The NAP process is currently organized around three main areas of work :
  - ✓ Development and implementation of the NAP process : continue capacity development in the NAP process and in the integration of climate
  - ✓ Mainstreaming Climate: integrating climate change adaptation into national policies, strategies and sectoral programs .
    - ✓ *Ex : the agriculture sector , Adaptation to climate change has already been incorporated into agricultural policy validated in December 2015*
  - ✓ Development of NAP reference document: proceed with the drafting of a NAP document for Togo by December 2016

## IDENTIFIED ACTIVITIES

- **Activities in support of the Department of Planning and Development Policy (DPDP) of the Ministry of Planning :** *Capacity building for managers in the DPDP to achieve their mission of accompanying sectoral ministries for the integration of climate change adaptation; the Consideration of climate change adaptation in sectoral planning documents*
- **Joint Planning DPDP / MERF steps to define a methodology for integrating aspects related to adaptation to Climate Change in strategic planning :** *Formation of a writing team for the development of the strategic guide; Drafting of strategic guide to be used as reference to support sectoral ministries in the integration of climate change adaptation*

## IDENTIFIED ACTIVITIES

- **Mainstreaming adaptation to climate change in the budget process :**
  - *using preparation of the framework letter of the 2017 budget process as an entry point*
  - *important step in the development of the state budget*
  - *Training of members of the committee of the MTBF committee on integration of Climate Change Adaptation (CCA) in the budget process 2017-2019*
- **Revision of sectoral policies**

# CHALLENGES

- **Maintaining good coordination** : (*between the MERF, the Ministry of Planning and Sectoral Ministries*)
  - **Scaling** (*with the gradual increase in the number of sectors involved*)
  - **Domestic resource mobilization** (*national effort*)
  - **External finance**
- 

# OUTLOOK

- Launching the process of drafting a NAP reference document:
- Training and capacity building
- Development of the NAP process financing strategy
- Development of an implementation strategy
- Monitoring and Evaluation

Implementation by sectors of concrete adaptation actions listed in Togo's NAP

**THANK  
YOU**
