Coordinating
Climate-Resilient
Development

**Institutional arrangements for
vertical and horizontal
integration**

Nikola Rass, GIZ
22.09.2016,
Phnom Penh, Cambodia

Overview

- Entry points for mainstreaming
- Institutional arrangements for sectoral and vertical integration
- Information Sharing for vertical integration

Steps for Mainstreaming

Analyze climate vulnerabilities

- How could development goals be affected by climate change?

Identify entry points

- Which policies, plans and budgets need to be modified to reduce the vulnerabilities?

Change policies, plans and budgets

- What adaptation options might be relevant to reduce the vulnerabilities?

Implement them

- What resources and capacities are required?
- Who is responsible?

Sectoral integration Institutional Approaches

Sector Driven

Coordination of sectoral initiatives to help define national adaptation priorities

Hybrid

Coordination of national and sectoral initiatives to ensure coherence and cohesion in the policy community

Nationally Driven

Uptake within sector-specific strategies and plans coordinated by the national climate change focal point

Vertical integration Institutional Approaches
