IMPACTS OF CLIMATE CHANGE IN PERU

THE PARIS AGREEMENT

PRIORITY SECTORS FOR THE NAP/ND ON ADAPTATION

PERU'S NAP/ND CROSS-CUTTING APPROACHES

PERUVIAN NDC

NDC are the Peruvian response to climate change to improve quality of life and sustainable development.

Peru established a Multi-sectoral Working Group to implement its NDC unified the national climate action.

TOGETHER

NAP/ND ON ADAPTATION

Climate variability is increasing in Peru. Thus, be prepared is the most important goal to face climate change

PERUVIAN MULTI-SECTORAL AND MULTI-STAKEHOLDER MODEL

President of the Republic of Peru with his cabinet installed the Multi-sectoral Working Group for the implementation of the NDC

KEY LESSONS ON THE NAP PROCESS

Elsa Galarza Contreras
Minister of Environment

THE BENEFIT OF CITIZENSHIP

“The key is to achieve a state policy towards climate change based on scientific and technical evidence, and mainly oriented to citizen's benefit.”

Rosa Morales Saravia
General Director of Climate Change and Desertification

THE VALUE OF PERU'S NAP

“The NAP allows us to know our work priorities to achieve Peru's sustainable development, and fulfill all the international commitments in consequence.”

Rosa Zavala Correa
General Director of Fisheries Sustainability of the Ministry of Production

THE LONG-TERM SUSTAINABILITY

“The adaptation NDC give us the opportunity to work together facing climate change with the objective to assure the sustainability of our natural resources.”

The National Adaptation Plan (NAP) Global Network is a group of individuals and institutions working to enhance national adaptation planning and action in developing countries. This is part of a series highlighting lessons emerging about the NAP process.
