TOGO

NATIONAL ADAPTATION PLAN (NAP) APPROACH

A multisectoral approach to mainstreaming climate change adaptation into development planning and budgeting across ministries

NAP PROCESS MILESTONES

2017
Dissemination of the NAP document and the mainstreaming guidelines.
Adoption of the NAP document.
Togo hosts a NAP Assembly to convene national stakeholders and bilateral donors.
NAP process guidelines validated for integration of adaptation into sectors.
Members of the Medium Term Budgeting Framework Committee attended a training workshop on integration of climate change adaptation into the budget process.

2016
Publication of the long-term development strategy Vision 2030.
NAP formulation initiated.
Technical Committee for Coordination of the Integration Process of Climate Change in Planning and Budgeting in Togo established and chaired by the Ministry of Economy, Finance and Development Planning and vice-chaired by the Ministry of Environment and Forest Resources.

2014
National Adaptation Program of Action (NAPA) completed.
Climate Change Division and the National Commission on Climate Change created.

2009
INTEGRATION WITH DEVELOPMENT PLANNING

As Togo works to achieve the Sustainable Development Goals by 2030, the NAP process is an opportunity to align these goals with our fight against climate change. Government is determined to systematically mainstream climate change adaptation into our national planning and development framework.

FINANCING THE NAP PROCESS

Adaptation strategies must be part of the domestic budget and part of development planning for our country to achieve our goal to become an emerging country by 2030. We have been mainstreaming climate change adaptation into the national budget, and aligning the NAP process with Togo’s national budget-planning process. We must take into consideration all factors that can build the resilience of our people and, as a consequence, of our economy.

CROSS-GOVERNMENT APPROACH

The NAP process in Togo is a participatory process, led by the Ministry of Planning and the Ministry of Economy and Finance. Climate change is not a simple environmental issue, but a cross-cutting issue that involves economic and development considerations. And so, we are looking to put in place a development strategy that is low carbon and that ensures resilience.

KEY OBSERVED & ANTICIPATED CLIMATE CHANGE IMPACTS

Heatwaves
Droughts
Floods
Rainfall variability
Sea level rise

PRIORITY SECTORS FOR ADAPTATION

Agriculture
Health
Human Settlements
Coastal Zones
Water

KEY LESSONS ON THE NAP PROCESS

2016
Boundjouw Sama
Secretary General, Ministry of Environment and Forest Resources

2014
Alex Etsri Homevor
Secretary General, Ministry of Planning and Development

2009
Didier Bamali
NAP Focal Point, Ministry of Environment and Forest Resources

November 2017

The NAP Global Network is a group of individuals and institutions working to enhance national adaptation planning and action in developing countries. This poster is part of a series highlighting lessons emerging about the NAP process.
