# Financing NAP Processes: Strategies and Case Studies for Engaging the Private Sector

Side Event at COP25 in Madrid, Spain  
Tuesday December 10, 2019 | 15:00-16:30  
**IFEMA Conference Center** | Blue Zone | Room 6

At this Side Event hosted by [Winrock International](#) and the Government of Vietnam, we will explore how governments and implementing partners have engaged the private sector to support the development, financing, and implementation of National Adaptation Plans (NAPs).

Examples will be presented showcasing how private sector entities can be engaged to understand opportunities of climate risk management, capture positive returns on investments, and identify and track the benefits to their respective organizations.
