NAP Global Network Update

Problem context

- **Need more and higher quality NAPs – especially in developing countries – to accelerate strategic investments in climate-resilient development**
- **This is limited by:**
 - Limited and diverse understandings of NAP processes
 - Relatively little ownership and leadership in NAP processes
 - Insufficient (institutional, technical) capacity and knowledge
 - Insufficient (uncoordinated) technical and financial support
 - Recent policy and funding decisions introducing new opportunities and actors

Role of the Network

- Offer thought leadership and knowledge management on NAP-related issues from a more neutral vantage point
- Provide a (safe) space and/or platform for peer support to accelerate learning
- Provide targeted and timely technical / institutional support – help fill gaps, maintain momentum
- Support coordination
 - Within countries, between different parts of government
 - Between countries and (bilateral) donors
 - Amongst donors providing NAP support

The NAP GN

- Vision
 - A world where communities and countries – particularly the poorest and most vulnerable – are able to articulate, work towards, and realise their development aspirations in a changing climate.
- Mission
 - Harness the collective knowledge and resources of governments, practitioners, donors and civil society to build capacities and accelerate the formulation and implementation of NAP processes.
- Goal
 - Enhance national adaptation planning and action in developing countries

ANALYSIS, COMMUNICATIONS & KNOWLEDGE PRODUCTS

Theory of Change

Impact

More and better strategic investments in climate-resilient development

Longer-term outcomes
5+ years

Higher quality of and more effective NAP processes in developing countries

Greater political recognition, support and leadership for NAP processes

Better financial and technical resources available to support NAP processes

Medium-term Outcomes
3-5 years

Active community of practice within and across countries that allows peers to call on each other for support in formulating and implementing NAPs

Increased in-country technical and institutional capacity to advance NAP processes

Better coordinated NAP support from bilateral development partners that is aligned with country priorities and leverages other investments

Outputs

Group of 15-20 countries regularly meeting and learning from each other on challenges and best practices re NAPs

30+ countries engaging with and requesting NAP support from the Network, articulating their needs and sharing progress updates

High-quality body of knowledge and guidance on NAP processes, accessible in multiple formats and through various channels

Group of 10+ bilateral donors with greater understanding of NAP processes actively working with each other to deliver NAP support

Strategies / activities

Activities to date

Participation: 500+ participants from 100+ countries
(# of sign-ups over the last year has doubled)

SUSTAINED PEER LEARNING & EXCHANGE

7 TTFs
21 cohort countries
9 peer exchanges

- 12 sNAPshots covering 5 topics
- 2 Guidance Notes available in 3 languages
- 2 Gender reports (framework & Kiribati report)
- 1 Expert Perspective
- 11 Country posters

NATIONAL-LEVEL ACTION

17 countries receiving support
14 CSH requests
5 NAP Assemblies

- 5 Webinars
- 4 videos
- 36 Blogs
- 1,500 Twitter Followers
- 450 Facebook 'likes'

ENHANCING NATIONAL ADAPTATION PLANNING AND ACTION IN DEVELOPING COUNTRIES

WHAT WE DO

Thematic areas

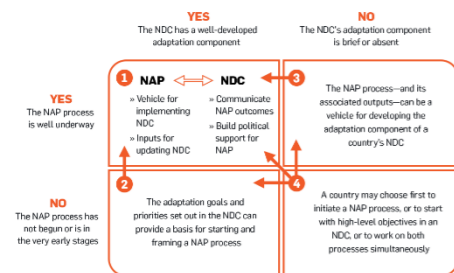

Sector integration

Spectrum of approaches to integration in a NAP process

	Planning	Implementation	Monitoring & Evaluation
Institutional Arrangements	Establishing clear roles and responsibilities for all stakeholders involved in the planning process	Establishing clear roles and responsibilities for all stakeholders involved in the implementation process	Establishing clear roles and responsibilities for all stakeholders involved in the monitoring and evaluation process
Information Sharing	Establishing mechanisms for sharing information and knowledge between stakeholders	Establishing mechanisms for sharing information and knowledge between stakeholders	Establishing mechanisms for sharing information and knowledge between stakeholders
Capacity Development	Identifying and addressing capacity gaps in the planning process	Identifying and addressing capacity gaps in the implementation process	Identifying and addressing capacity gaps in the monitoring and evaluation process

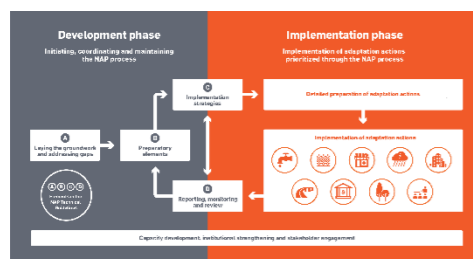

Vertical integration

Framework for creating strategic links between national and sub-national adaptation planning, implementation, and M&E

Relationship to NDCs

Framework for understanding how NAPs are related to NDC processes and SDG implementation

Financing NAP processes

Identifying, aligning, and strategically accessing different sources of financing for different phases of the NAP process

Thematic areas

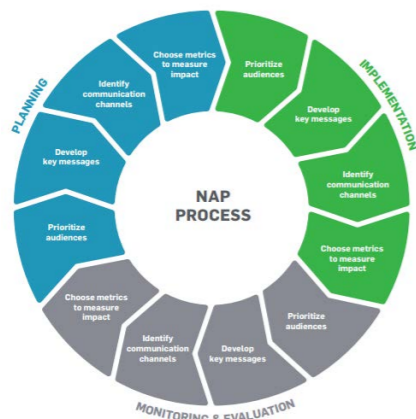

Gender

Assessing and tracking gender-responsiveness in NAP processes

Monitoring & Evaluation

Identifying the key opportunities, challenges, and lessons learned in the design of M&E systems

Strategic Communications

Framework for aligning strategic communications considerations – audiences, messages, channels, impact – with the NAP process

Engagement

UNFCCC Bodies

- Least Developed Countries Expert Group
- Adaptation Committee

NAP Support Initiatives

- Green Climate Fund Readiness Programme
- UNDP-UNEP NAP Global Support Programme
- UNDP-FAO Integrating Agriculture into NAPs (NAP-Ag)
- Japan-UNDP Caribbean Climate Change Partnership
- Ministry of Environment, Japan / Mitsubishi Research Institute

NDC Initiatives

- NDC Partnership
- IKI NDC Support Cluster / SPA

Other adaptation Platforms / Initiatives

- Pilot Program for Climate Resilience (PPCR)
- Global Centre of Excellence on Climate Adaptation
- Global Adaptation Network

Observations

- **Increased profile of and activity around NAPs** – Paris Agreement / NDCs, GCF Readiness
- **Approaches to NAPs are diverse** – tailoring / ownership, but also confusion
- **Proliferation of planning processes and documents** make it difficult for NAPs to get profile and attention they need
- **Unclear if NAPs fulfilling their strategic functions**
- **Policy developments outpacing institutional capacity**
- **NAP support still seems to be dominated by multilaterals**
- **Big gaps in knowledge remain** – private sector, other ‘orphan’ sectors, bridging planning to implementation

Lessons

- Relationship management; lots of personnel investment
- Peer learning opportunities are welcome but not enough of an incentive for country participation and interest
- Despite workshop fatigue, convening is at the heart of the NAP process (in-country) and key to positioning for the Network
- Big gap / need in knowledge management and communications
- Bilateral coordination needs a bilateral leader
- Having the in-country program is a massive asset to the Network
- Must be mindful of space between countries and donors
- Must be nimble, flexible

Network Strategy 2018 – 2020

Phases

Peer Learning

**SUSTAINED PEER
LEARNING & EXCHANGE**

- Phasing out TTFs in early 2019, when Cohort 2 meets for fourth and final time
- Continue to follow-up with cohorts
- Organizing 3 Peer Learning Summits
 - 2018: NDC-NAP links
 - 2019: TBD
 - 2020: TBD
- Stepping up the Peer Exchange Program
 - 15 exchanges per year
 - More hands-on, on-the-job learning opportunities

National action

**NATIONAL-LEVEL
ACTION**

- Scaling-up the role of the Country Support Hub
 - Now: 20-25 requests
 - Fundraising
 - Key knowledge management function – i.e. tracking technical needs
- Securing support to continue some of the country programs that will come to a close in 2018
- Possibly adding up to 5 new countries, provided resourcing is available

Bilateral Support

**ENHANCING
BILATERAL SUPPORT**

- Identify donor champions
 - Overall or for specific aspects / themes
- Systematizing donor engagement and updates
 - Bi-annual newsletter
 - Informal knowledge base
- Convening a donor dialogue around NAP support
 - In conjunction with other, more high profile meetings
- Tracking in-country / regional coordination

Communications & KM

ANALYSIS, COMMUNICATIONS & KNOWLEDGE PRODUCTS

- Stay the course, monitor and adjust as needed
- Build on existing thematic areas
- Emphasize strategic communications theme
- Emphasize storytelling and track impact – draw from the Network participants' experiences
