NAP Global Network

Highlights from 2017-18

What happened in 2017—2018? A lot.

Network participation continued to rise
- 32% increase

Active in more countries
- 31 countries; went from 6 to 17 in-country programs

Increased demand for technical support
- 40% increase in Country Support Hub requests

Supported more peer learning & exchange
- Brought TTF cohorts together; PLS; 18 exchanges

Added new thematic priorities
- Alignment; strategic communications

Produced more knowledge resources
- 11 publications, 14 blogs, 9 posters, 7 videos; 2 webinars
- Nine new publications already in 2019
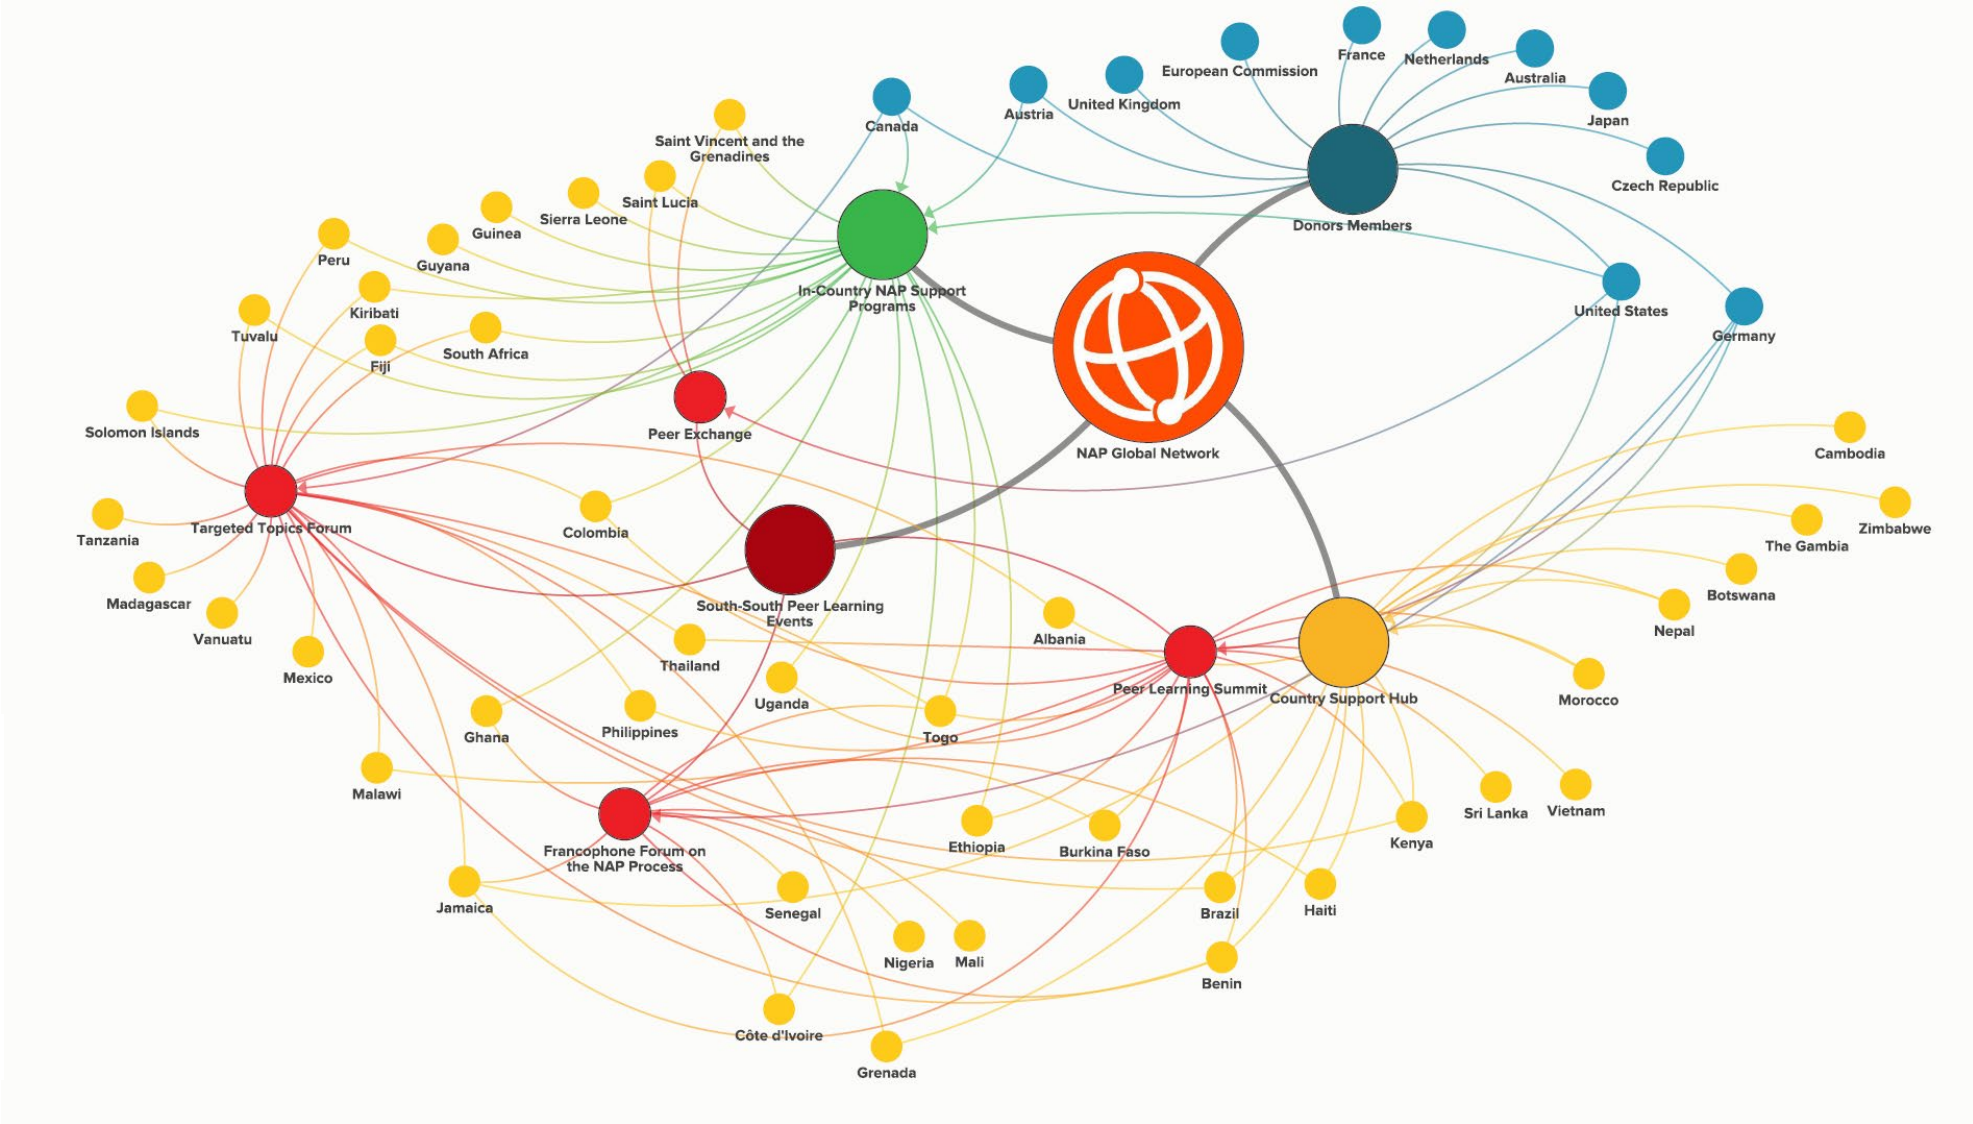

Secretariat grew

The year in review

Global Events the Network Participated In

Peer Learning and Exchange Events

Donor Coordination

National-Level Action

COP 23
The NAP Global Network Secretariat showcases work on gender, finance, and local-to-national links in the NAP process.

Targeted Topics Forum
Representatives from 21 countries share lessons and best practices on gender, monitoring and evaluation, and strategic communications in NAP processes at the Network's largest-ever peer learning event.

Donor Symposium
Representatives from more than 15 donors active in the Caribbean gather in Barbados to learn about adaptation priorities in Saint Lucia and Saint Vincent and the Grenadines.

NAP Expo
The Network convenes side events on gender-responsive NAP processes and on strategic communications.

Adaptation Futures 2018
The Network hosts a session on South-South peer learning, shares lessons on local-to-national links in adaptation, and highlights progress on how countries are linking NAP processes and NDCs.

Francophone Forum on National Adaptation Planning Processes**
Representatives from 11 countries come together for South-South peer learning and exchange on budgeting and communications for the NAP process.

Peer Learning Summit
Delegates from 16 countries meet in Bangkok to look at how to align their NAP processes with adaptation commitments in their Nationally Determined Contributions under the Paris Agreement.

Fiji launches its NAP Framework at COP 23.

Ethiopia launches a series of regional consultations to bring the country's NAP document to regional stakeholders, building local-to-national links in prioritizing and planning adaptation action.

Kiribati, Tuvalu and **Solomon Islands** launch integrated vulnerability assessments to collect data for their NAP processes.

Saint Lucia launches its NAP document in Castries.

Saint Vincent and the Grenadines launches its NAP document in Kingstown.

Kiribati raises political support for its NAP* process at the 2018 Mayors General Meeting.

Nepal launches a report consolidating lessons to date from adaptation planning in the country, laying the groundwork for the next phase of its NAP process with readiness support from the Green Climate Fund.

Peru hosts its First National Communicators Workshop, bringing together journalists and communicators from 21 regions of Peru to communicate climate change adaptation to different audiences across the country.

Jamaica organises a Climate Change and Gender Workshop, bringing together focal points from Jamaica and the East Caribbean for focused discussions on advancing gender equality through national adaptation planning and policy-making.

Ghana validates its NAP framework.

Fiji finalizes its NAP document, to be launched at COP 24.

Sierra Leone validates its NAP framework.

Colombia presents its adaptation goals, measures and indicators for three priority sectors: water and sanitation, housing, and industry.

Our reach

Reflections

High points
- "Turbo TTF" and countries moving to implementation

Low point
- Overstretched Secretariat

Reputation for well-facilitated events
- Opportunity to offer technical support on this? Guidance developed

Trusted knowledge source and sharer
- Have a bigger footprint at global events
- Build on this to be *the* go-to resource – stories of progress, database

Reflections

Strong partnerships established
- Good for coordination but take a lot of work to leverage
- NDCP, GCF, NAP GSP, NAP-Ag, CDKN, OECD

Need to be careful not to stretch ourselves too thin
- How many CSH a year? How many more in-country programs?
- Seven thematic priorities already – can we take on more?

Paying more attention to the UNFCCC process, bodies
- More questions around NDCs, Adaptation Communications
- Strategic engagement with constituted bodies

Need to lock in this level of funding to the end of 2023
- To maximize investments we've made and see impact at national and global levels
